

## The Lyceum 57 has been keeping its chronicle since 1980.

During its existence, the Lyceum became a laureate of the competition "The Best School of the Year", a winner of the 1<sup>st</sup> all-Russia competition of educational institutions, introducing innovative educational programs. The Lyceum is decorated with the national award "For Merits In Science and Education" within the framework of National Priority project "Education".

The Lyceum is entered in encyclopaedia of contemporary biographies "All Russia – XXI Century". It is a holder of the first prize in regional competition "Wings Of Success" in nomination "The Institution of General Education", is a regional stage winner of the All-Russia competition of educational institutions and city educational systems "Tomorrow Will Be Better Than Yesterday".

The Pedagogics of Success is the

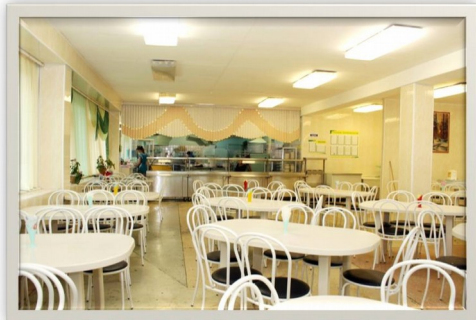

backbone principle of Lyceum 57.

A distinctive feature of the Lyceum is realisation of National Educational Program “Intellectual and Creative Potential of Russia”. Within the framework of this program it has been enrolled in the list of one hundred best educational institutions of Russian Federation. For the last year 694 students became prize winners of competitions and Olympiads of different levels. In 2012 thirty-two graduates received golden and silver medals. It is the best indicator in the district of Togliatti. During 32 years there were 3951 graduates in our school and 190 of them got golden and silver medals.

Since January, 2012 the education on the senior stage proceeds successfully according to individual curricula based on educational trajectories of students. Together with school teachers pedagogues from higher education institutions are drawn into school work.

Creative atmosphere and child-centered learning approach impart peculiarity and individuality to the lyceum. All this is possible thanks to modern equipment.

There is a conference hall with informational and communicative equipment, classrooms with interactive complexes in the lyceum. 95 per cent of classrooms are equipped with computers , 106 of them are connected to a local network and have the Internet .

There are also physics and IT laboratories, Art studio, a library, a digital resources library, two gyms, modern sports-ground and a canteen there.

We can name the lyceum “School of Creativity”. Every student has an opportunity to attend one of the 60 school clubs, take part in projects, de-marches, competitions, collective and creative causes in different areas: aesthetic, patriotic, moral, cognitive, sports and

ecological.

Our music groups “Fantasy” and “Joy” became laureates of all-Russia vocal children's and teen-age competitions “Wind Rose”, “Open Your Heart”. The combined lyceum chess team has become a prize-winner of the regional chess tournament “White Castle” several times. Extra-curriculum activity in our lyceum is considered to be a process of individual development and health keeping.
